### **Statement of intent**

We want children, staff, parents, carers, students, volunteers and visitors in the setting to feel secure in the knowledge that images and comments are not used inappropriately.

### **Aim**

Our aim is to have a clear policy on the acceptable use of the mobile phone cameras and the use of social network sites that is understood and adhered to by all parties concerned without exception.

In order to achieve this, aim we operate the following acceptable use policy.

### **Mobile phones**

- The setting allows staff to bring in personal mobile telephones and devices for their own use, but they must be kept in the locked cupboards or lockers provided in each setting.
- Personal mobile phones and any recording media including smart watches are not permitted within the play rooms unless it is an emergency and these must be kept in the office where no children are present.
- Fitness trackers with no camera and calling device are permitted, however the text and call notification must be switched off.
- All staff, parent helpers, students and volunteers are required to keep mobile phones in a locked cupboard.
- All parents, carers and children coming into the setting are not permitted to use mobile phones or any recording equipment in the setting. Parents will be challenged if any member of staff sees a mobile phone out or in use.

- During group outings nominated staff will have access to the settings mobile phone, which is to be used for emergency purposes only.

staff's mobile phone should there be any cause for concern over the appropriate use of it. This also includes checking the call and text message feature is turned off on fitness watches. Staff are also able to use the whistleblowing policy if they observe this procedure not being followed.

- Should inappropriate materials be found then our Local Authority Designated Officer (LADO) will be contacted immediately. We will follow the guidance of the LADO as to the appropriate measures to be followed thereafter.

### **Cameras and tablets**

Photographs taken for the purpose of recording a child or group of children participating in activities or celebrating their achievements is an effective form of recording their progression in the Early Years Foundation Stage. However, it is essential that photographs are taken and stored appropriately to safeguard the children in our care.

- Only the designated setting cameras or tablets are to be used to take any photographs within the setting or on outings.
- Permissions must be sought from parents and carers on entry to the setting for photographs to be taken.
- Images taken on a setting camera or tablet must be deemed suitable without putting the children in any compromising positions that could cause embarrassment or distress.
- All staff are responsible for the location of cameras and tablets. When not in use they will be stored in a locked filing cabinet.
- The cameras and tablets must be locked away at the end of each day.
- Images taken and stored on the camera must be downloaded as soon as possible, ideally once a week.
- Images must only be downloaded by the nominated senior member of staff, these being the Childcare Manager, Deputy Childcare Manager, Room Leaders and Deputy Room Leaders.
- Cameras and tablets are not permitted in the bathrooms without prior consultation with the manager. If photographs need to be taken in a bathroom, i.e. photographs of the children washing their hands, then the manager must be asked first and staff be supervised whilst carrying out this kind of activity. At all times the camera and tablets must be placed in a prominent place where it can be seen.
